

THANTHAI HANS ROEVER COLLEGE

(Autonomous)

(Affiliated to Bharathidasan University & Nationally Re-Accredited by NAAC)
ELAMBALUR (P.O), PERAMBALUR - 621 220

Academic Year – 2022-2023

2.6 - Student Performance and Learning Outcomes

2.6.2 - Attainment of Programme Outcomes and Course Outcomes as evaluated by the Institution

The assessment framework at the institution encompasses both Formative and Summative evaluations. Formative assessment, a continuous process, involves various elements such as tutorials, assignments, tests, and presentations throughout the academic term. This method provides ongoing insights into student progress. Semester-wise, students undergo two CIA tests and a Pre-semester examination, contributing to their continuous assessment.

Summative evaluation culminates in written exams at the semester's end. Combining internal and external scores, the institution employs an Attainment Level Criteria:

If 70 % and above of students got 75 marks and above:	Attainment Level 3
If 60-69% of students got more than 75 marks and above:	Attainment Level 2
If 50-59% of students got more than 75 marks and above:	Attainment Level 1
Less than 50% of students got more than 75 marks and above:	Attainment Level 0

The institution meticulously calculates the attainment levels for each Course Outcome (CO), normalizing final scores and setting improvement actions for any unsatisfactory CO attainment. This comprehensive evaluation system ensures a balanced assessment approach and a commitment to continual improvement.
