

## THANTHAI HANS ROEVER COLLEGE

(Autonomous)

(Affiliated to Bharathidasan University & Nationally Re-Accredited by NAAC)  
ELAMBALUR (P.O), PERAMBALUR – 621 220

### Academic Year – 2022-2023

#### **4.3.1 - Institution has an IT policy covering Wi-Fi, cyber security, etc. and has allocated budget for updating its IT facilities**

Thanthai Hans Roever College's IT policy emphasizes secure and effective IT infrastructure through established standards for service management, information security, network security, risk management, and software management.

The Computer Support Group (CSG) plays a key role in planning, procuring, installing, and configuring IT equipment across computer labs and administrative sections. They determine the operating system, allocate IP addresses and proxies, and manage email systems.

CSG also selects and deploys appropriate software in administrative sections, ensuring alignment with the college's requirements. They have established clear maintenance and problem-solving processes to facilitate efficient troubleshooting by technicians.

The entire campus benefits from a reliable, high-speed network infrastructure built on fiber optic cables. All systems are connected, enabling seamless communication and data sharing.

A leased line with a 500 Mbps bandwidth provides fast and stable internet access throughout the campus, supporting online activities, research, and academic pursuits.

Wi-Fi accessibility in staff rooms, classrooms, and offices empowers faculty, staff, and students to access the network and online resources conveniently from their personal devices.

Additionally, a 24/7 CCTV surveillance system ensures the safety and security of faculty and students. This system not only assists in preventing unwanted grievances but also serves as an information cell, storing valuable footage for security purposes.
